CAREER OBJECTIVE

Computer Engineering student at ENSAO, specializing in Software Engineering and Artificial Intelligence, with a focus on web and mobile development, DevOps and AI. I am looking for a **four- to six-month final-year internship (PFE) starting January 2027** to apply my technical skills to real-world projects and actively contribute to the company's goals.

TECHNICAL SKILLS

Languages

HTML CSS JavaScript PHP C#

Python Java

Frameworks & Libraries

React.js Spring Boot Symfony .NET

Databases

SQL MySQL PL/SQL

Design & Modeling

UML Merise

Project Management & DevOps

Git Docker Jenkins Maven Linux

SonarQube Jira Scrum Kanban

Machine Learning & Data

Pandas NumPy Matplotlib OpenCV

scikit-learn

SOFT SKILLS

- Autonomy & accountability
- Teamwork
- Adaptability
- Motivation & commitment
- Rigor & organization

LANGUAGES

Arabic Native

French Fluent

English Intermediate

EXTRACURRICULAR ACTIVITIES

Club Altruisme – ENSAO 2022 – 2025

- Head of the Al-Masjid Cell (2024–2025)
- Vice President (2023–2024)
- Active Member – Design & Editing Cell

Club GI – ENSAO 2024 – 2025

- Active Member – Design Cell
- Helped organize the Computer Science Day (4th ed.)

Maison des Sciences 2024 – 2025

- Took part in the Science Festival (12th ed.)

EDUCATION

ENSA Oujda 2024 – 2027

Engineering Cycle — Computer Engineering

ENSA Oujda 2022 – 2024

Preparatory Cycle — Science and Technology for Engineering

Ibn Sina High School, Oujda 2021 – 2022

Baccalaureate in Physical Sciences — High Honors

PROFESSIONAL EXPERIENCE

PFA Internship — Novelis, Oujda July – August 2026

Power Automate · SharePoint · Outlook · Excel

Designed a generic automation solution for internal business processes (request approval, notifications, status tracking) built on Power Automate, SharePoint and Teams/Outlook, using a role-based approach to make the solution reusable.

Introductory Internship — Cleverix, Marrakech July 2025

React / Laravel

Developed an e-commerce application with React (Hooks, Context API, React Router) on the front end and Laravel on the back end, including an admin dashboard to manage users, products and orders, plus secure authentication with role-based access.

ACADEMIC PROJECTS

PFA Project: SmarTest — Intelligent Assessment Platform

.NET (WPF) · Spring Boot · React · MySQL · Generative AI · Visual Studio

Secure quiz and exam management system built on a hybrid architecture that protects the confidentiality of educational data:

- Desktop application (.NET / WPF) for AI-powered question generation via the Groq API, and for managing and supervising quizzes and exams
- Spring Boot back end with WebSocket for real-time session management
- React web interface where students take their assessments

RoadmapDev — E-learning Platform

Symfony · PHP · Twig · MySQL · HTML/CSS · VS Code

Progressive learning modules with an interactive dashboard and personalized student progress tracking.

RhVerse — HR Mobile Application

Java · XML · Firebase · Android Studio · Git

Android HR management app covering attendance, leave requests, meetings and certificates.

ArchvoxLib — Library Management

Python · Tkinter · Matplotlib · CSV · OOP

Desktop application for managing books, members and loans, with a graphical interface and visual statistics.

MemoPharma — Medical Follow-up

JavaFX · MySQL · SceneBuilder · NetBeans · CSS

Management of patients, treatments and appointments with secure authentication and statistical dashboards.
